Jane Doe

Senior Backend Engineer

+1 555 0100 ● jane.doe@example.com ● portfolio ● linkedin ● github ● Austin, TX

Backend engineer with 8 years of experience building **payment and logistics APIs** in Python and Go. I like boring, reliable systems, clear docs, and shipping small changes often.

SKILLS

Languages: **Python**, **Go**, SQL, TypeScript.
Backend: PostgreSQL, Redis, Kafka, REST and gRPC APIs.
Cloud & Ops: AWS, Docker, Kubernetes, Terraform.

EXPERIENCE

Senior Backend Engineer Mar 2022 – Present
Globex Payments | Remote
Payments platform team (6 engineers) behind checkout for 2,000+ merchants.

Key Accomplishments:

- Cut checkout API p95 latency from **820 ms to 190 ms** by moving fraud checks to an async Kafka pipeline.
- Led the migration of 40 million payment records to a partitioned **PostgreSQL** cluster with zero downtime.
- Mentored 3 junior engineers; introduced design docs and a weekly API review.

Backend Engineer Jun 2018 – Feb 2022
Initech Logistics | Austin, TX

Key Accomplishments:

- Built the shipment-tracking API in **Go**, serving 15k requests per minute at peak.
- Reduced cloud costs by **31%** by right-sizing services and adding Redis caching.
- Wrote the on-call runbook that cut mean time to recovery from 2 hours to 25 minutes.

Software Engineer (Intern) Jan 2017 – May 2018
Acme Analytics | Austin, TX

Key Accomplishments:

- Automated nightly data imports in **Python**, replacing a 4-hour manual process.

EDUCATION

State University | B.S. Computer Science 2014 – 2018

PROJECTS

tinyqueue | *Go* | Code github.com/example/tinyqueue

- A small persistent job queue on top of PostgreSQL. 300+ GitHub stars.

CERTIFICATIONS

- AWS Certified Solutions Architect – Associate (2023)
